

TECHNICAL SHEET

Dilation joint with adhesive base made of expanded polyethylene. It is ideal to cut the concrete, for example, at the doorway, in order to guarantee the right dilation. Its upper part shall be leveled out once the screed is ready.

Code

1054220

Characteristic	Value	Unit
Length	2000	mm
Height	100	mm
Thickness	7,5 ÷ 9,5	mm
Base Thickness	30	mm
Dimensional tolerances	± 10	%
Cellular structure	Closed cells	
Specific weight	50	kg/m ³
Compressive strength at 10% deformation	9,6	kPa
Standard Colour	Red	
Does not contain CFC (freon) In compliance with L .549 of 28/12/93
