

## TECHNICAL SHEET

Expansion joint with adhesive base made of expanded polyethylene. Ideal for positioning on doors or when interrupting a screed to ensure expansion. The upper part is trimmed when the screed is finished.  
 Adhesive on lower base approx. 20 mm.  
 Dimensions: H.100 mm, TH.8,5 mm, L.2000 mm.

### Code

1054220

Characteristic	Value	Unit
Length	2000	mm
Height	100	mm
Thickness	7,5 ÷ 9,5	mm
Base Thickness	30	mm
Dimensional tolerances	± 10	%
Cellular structure	Closed cells	
Specific weight	50	kg/m <sup>3</sup>
Compressive strength at 10% deformation	9,6	kPa
Standard Colour	Red	
Does not contain CFC (freon). In compliance with Law 549 of 28/12/93
